About us

The ABC Clinker Group

We, the ABC Clinker Group, are a family-owned business in the brick and tile industry located in Germany. We look back on around 130 years of experience. Our product range is based on one of humans' oldest natural building materials - the clay.

Today, our ABC Clinker Group is in the fifth generation and manufactures various brick products at six locations in Germany. Our product portfolio includes facing bricks, brick strips, clay pavers, clinker roof tiles and floor ceramics.

Sustainability

We produce sustainable natural building materials as environmentally friendly as possible. For this reason, we focus on low energy consumption in production with gentle, efficient use of resources and low material consumption.

The natural slate clay of the Tecklenburger Land forms the basic material of our ABC products - a valuable, genuine natural product!

Innovation

The renaissance of bricks has shown that the brick as a building material has again successfully adapted to the new requirements and tasks of its time - that is why we are already working today on the brick products of tomorrow.

About ABC-NORDIC

01 Ceramic System

The ceramic system ABC-NORDIC is a homogeneous, durable “brick tank” with traditional material in a modern brick design. It is light and easy to use. ABC-NORDIC is quick to process, durable and suitable for renovations and new buildings. It combines the materiality of the facade and the roof so that the buildings appear to have been cast in one piece.

- open to diffusion
- graffiti-resistant
- recyclable
- made from natural materials
- available in different colours and formats on request

02 Product features

-  frost-resistant
-  environmentally friendly
-  water absorption ≤ 6 %
-  colourfast
-  weatherproof
-  fire behavior: euroclass A1
-  standardized

03 Formats

Length	365 mm
Width	175 mm
Height	30 mm
Material thickness	14 mm
Weight	2,3 kg
Lath spacing	approx. 220 mm

Length	400 mm
Width	175 mm
Height	30 mm
Material thickness	14 mm
Weight	2,6 kg
Lath spacing	approx. 140 mm

Length	400 mm
Width	250 mm
Height	30 mm
Material thickness	14 mm
Weight	3,4 kg
Lath spacing	approx. 140 mm
